ABOUT US

HIGH-QUALITY DAIRY PRODUCTS FROM THE HEART OF EUROPE

TERRA FOOD GROUP is a leader in the Ukrainian food industry.

We focus on manufacturing dairy products. Being one of the largest Ukrainian spreads exporters, we export our products to 27 countries around the world. Our production facilities are located at 10 modern high-tech plants, 9 in Ukraine and 1 in the Russian Federation.

Due to balanced climatic conditions favorable for dairy and beef cattle husbandry, many years of production traditions and advanced European technology, our products meet the highest international quality standards (ISO 9001:2008, ISO 22000:2005, ISO 14001:2004, HACCP, HALAL).

Our products come in a variety of packaging and weights. To meet our local customer preferences around the world, our experienced craftsmen develop products with various taste variations.

We are actively expanding the geography of our exports and are looking for cooperation with prospective and reliable partners who value reputation, experience and guaranteed stability.

Our partners

- **McDonald's** in Ukraine, Moldova, Belarus, Azerbaijan and Georgia (supply of dairy mixtures for shakes and ice cones)
- **ROSHEN** International Confectionery Corporation
- **AVK** Confectionery Company

OUR PRODUCTS

SPREADS

Our spreads and mixtures are healthy high-quality products. Their main features are delicate creamy taste, soft texture, combination of milk fats and vegetable oils benefits. Our spreads can be used as standalone products, in sweets, chocolate, ice cream, bread production, meat and dairy industry.

COMMERCIAL BENEFITS

- affordable price. Expensive milk fat is partially substituted with vegetable fat
- can be stored longer than butter (max 120 days vs 75 days for butter)
- higher maximum storage temperature (+4°C vs 0°C for butter). Consequently, storage costs and risks of spoilage are lower
- adjustable product formula. We can manufacture products with specified characteristics (milk fat content, melting point, moisture content)

CONSUMER BENEFITS

- easy to spread on bread, even when chilled due to plastic consistency
- does not burn and does not foam when frying
- ideal for baking and cooking creams, significantly outperforming margarine due to milk fat content
- stored longer due to the content of natural preservative, vitamin E

HEALTH BENEFITS

- high content of polyunsaturated fatty acids, which are essential for the functioning of our body's every cell
- much less cholesterol than in butter
- low and strictly regulated content of trans fat harmful to the human body (no more than 8%), unlike margarine
- contains vitamin A, useful for visual sense and healthy skin
- contains vitamin D, which ensures healthy ossa performance
